CAREER SUMMARY

.Net Developer with 4+ years of experience developing and maintaining enterprise applications using C#, .NET, ASP.NET Core, ASP.NET Web API, SQL Server, and ADO.NET. Strong experience in RESTful API development, database optimization, authentication and authorization, OOP, SOLID principles, clean architecture, design patterns, and dependency injection. Hands-on experience with Angular, JavaScript, Microsoft Azure, Git, Swagger, and Postman, with proven experience working in Agile/Scrum development environments.

TECHNICAL SKILLS

- **Programming:** C#, SQL, LINQ, Async/Await
- **Backend:** ASP.Net Core, ASP.Net, ASP.Net MVC, Web Forms, Window Forms, Entity Framework
- **API Development:** Restful APIs, Http/Https, Authentication, Authorization, API Integration
- **Database:** MS SQL Server, ADO.Net, Store Procedures, SQL Queries, Joins, Transactions, DB First Approach, Code First Approach
- **Frontend:** Angular 21, AngularJS, JavaScript, J-Query, HTML5, CSS, Bootstrap
- **Cloud:** Microsoft Azure
- **Architecture & Design**: OOP, Clean Architecture, N-Layer Architecture, Monolithic Architecture, Solid Principle, Design Pattern, Repository Pattern, Dependency Injection
- **Version Control & Development Tools:** Visual Studio, VS Code, Postman, Open API, Swagger, Git, GitHub, FileZilla, SVN
- **AI-Assisted Development:** GitHub Copilot, OpenAI Codex, Claude, Lovable
- **Containerization:** Docker

PROFESSIONAL EXPERIENCE

Simson Softwares | Associate Software Developer | **Sector 82, Mohali** Jul 2023 – Sep 2026

SAIBAOnline – Insurance Management Platform: *SAIBA is an ERP Portal for direct insurance brokers, providing a unified view of customers and supporting various insurance products*.

Task / Achievements

- In my role, I led the development of an Enterprise Resource Management (ERM) system. I built a responsive front-end using .NET Core API, ASP.NET, and C#, and utilized SQL Server for data storage.
- Built responsive front-end using ASP.NET, AngularJS, MVC, C#, integrated with .NET Core APIs.
- Optimized SQL Server databases for large-scale insurance data handling.
- Delivered features ensuring a unified customer view across insurance products for clients such as Mahindra, Prudent, TATA, HDFC, and Toyota.

NLEMS Portal: *NLEMS is a user-friendly customer portal for managing account details, outstanding balances, and personalized reports*.

Task / Achievements

- In the reinsurance broker software project, I worked on database management and accounting modules, ensuring seamless support across multiple sales channels.
- Resolve defects, supported testing and development and maintained application code.

Cattle API: *Developed a Cattle Insurance Management System from scratch using .NET/C# with a RESTful API-based architecture for policy management*.

Task / Achievements

- *Built custom APIs integrated with SQL Server for secure data handling, transactions, and backend logic validation*.

Client-Specific SAIBA API Integration: *Created custom RESTful APIs for the SAIBA insurance platform to enable client-specific integrations*.

Task / Achievements

- *Built secure, scalable API endpoints with backend logic and SQL Server support for real-time operations*.

Swap: *Integrated POS, RM, and policy data into the SWAP platform for seamless online insurance policy management*.

Task / Achievements

- *Enhanced operational efficiency, customer data management, and workflow automation, supporting multiple direct insurance products*.

Offbeat Software Solution | Jr. Software Developer | **Sector 74, Mohali** Jul 2022 – Jun 2023

The organizations is a leading provider of internet-based applications and product development.

Task / Achievements

- Provided technical support to clients for web-based applications. Applied client-side validations using jQuery and ASP.NET.
- Built responsive front-end interfaces using HTML, Bootstrap, and CSS and maintained and enhanced websites using scripting languages.

CS Infotech | Intern | Sector 22D, Chandigarh Jan 2021 – Jun 2022

Book Shopping website: *an online marketplace where users can browse, search, purchase, and sell books across multiple categories*.

Task / Achievements

- Implemented functionality for user accounts, book listings, product details, and buying/selling workflows.
- Contributed to real-time development tasks during a structured software development internship.
- Gained practical experience in .NET development, API basics, and debugging.

EDUCATION

MASTER'S DEGREE | Computer Application | Chandigarh University 2023 – 2025

BACHELOR'S DEGREE | Computer Science | Guru Nanak Khalsa College 2018 – 2021
